## PROFESSIONAL SUMMARY

---

Front-End Developer with 6+ years of experience collaborating with cross-functional teams to deliver scalable, user-focused solutions. Proven track record in launching innovative products, optimizing efficiency, and building strong stakeholder relationships to drive business growth.

## WORK EXPERIENCE

---

- ◆ **Snr. Front End Engineer - Fatbeehive London, UK** **Jan. 2025 – Present**
  - Lead the development and optimization of accessible, user-centric websites and platforms for charities and ethical organizations.
  - Collaborate with UX designers and project managers to transform complex briefs into performant, responsive frontends using technologies like Twig, Javascript, Jquery and WordPress.
  - Implement custom UI components, reusable design systems, and maintain pixel-perfect fidelity to Figma prototypes.
  - Work as Tech Support for clients and delivered fast and efficient solutions for tickets raised thereby reducing the Organization's Support response time.
  - Advocate for best practices in semantic HTML, SCSS, and JavaScript to ensure WCAG 2.1 AA compliance and SEO optimization.
  - Contributed to internal process improvements, including enhanced CI/CD workflows and better Git branch strategies.
  
- ◆ **Snr. Front End Developer - Qshelter Limited, Lagos, Nigeria** **Sep. 2023 – Present**
  - Built the frontend of *Contribuild* using React and TypeScript, securing a senior role within two weeks by impressing the team with responsive design and intuitive features.
  - Delivered key functionalities for *Qshelter*, driving 100,000 visits and achieving 90% user retention within a month through agile collaboration with engineers.
  - Rapidly developed the *Mofi Housing Platform MVP* in 15 days, showcasing advanced front-end skills and dedication to fast-paced delivery.
  - Developed the *Renewed Hope Housing Platform* with Qshelter and the Federal Government of Nigeria, driving over 50,000 user registrations and NGN 1B+ in sales post-launch.
  
- ◆ **Front End Developer - Mage Inc, Lagos, Nigeria** **Dec. 2021 – Oct. 2023**
  - Developed the organization's landing page and resolved bugs, ensuring a flawless first impression for users.
  - Built the *Creator Store* from scratch, attracting 6,000+ users with an 80% retention rate through an intuitive purchase experience.
  - Created the *Creator Dashboard* for data-driven insights, enabling creators to track performance and manage customer interactions.
  - Developed payment infrastructures, including wallets, checkouts, and a Virtual Card system, enabling secure and seamless monetization.
  
- ◆ **Front End Developer, Kpie Technologies, Lagos, Nigeria** **Nov. 2019 – Oct. 2021**

- Delivered the PPMI website 3 days early, translating the CTO's brief into a visually appealing and functional design.
- Enhanced the *MultiGrid Limited* website by implementing UX best practices for an engaging user experience.
- Built *SellMega* from scratch, creating a user-friendly e-commerce platform based on UX principles.
- Collaborated with backend developers to launch the *Hua Ou Brick* website and contributed to *SafeScout*, improving workplace communication.

#### ◆ Freelance Frontend Engineer

Jun. 2018 - Present

- Built responsive, user-friendly websites and applications using React, TypeScript, and modern front-end tools.
- Developed e-commerce platforms, dashboards, and secure payment systems with a focus on seamless user experience.
- Collaborated with cross-functional teams to deliver high-quality projects on time and within scope.
- Applied UX design principles to create visually appealing interfaces and optimize performance across devices.
